### About Me

As a dedicated Diploma Doctor with a strong foundation in General Medicine and Basic Surgery, I have cultivated a comprehensive understanding of patient care and medical practices. My clinical experience has equipped me with the ability to diagnose conditions accurately and implement effective treatment plans, ensuring the well-being of my patients.

In addition to my medical expertise, I possess a robust skill set in professional digital marketing and Shopify web development. This unique combination allows me to bridge the gap between healthcare and technology.

I am passionate about integrating innovative solutions in healthcare, striving to improve patient experiences and outcomes through effective communication and accessibility. My diverse background empowers me to approach problems with a multi-faceted perspective, making me a valuable asset in both medical and digital spaces. I am committed to continuous learning and development, ensuring I stay at the forefront of advancements in both medicine and technology.

## Education

### Diploma in Medical Faculty

*Prime Medical assistant training School, Rangpur.*

2018 - 2023

I completed my Diploma in Medical Faculty (DMF degree) from Prime Medical Assistant Training School in Rangpur, graduating in 2023. My studies spanned from 2018 to 2023, during which I gained a solid foundation in general medicine and basic surgical practices. The program emphasized hands-on training and clinical exposure, enabling me to develop essential skills for effective patient care. The supportive learning environment and experienced faculty at Prime Medical provided me with valuable insights into the healthcare field. This training prepares me to contribute meaningfully to the medical community while continuously seeking opportunities for professional growth.

### Bachelor of Science Dep. of Zoology

*Lalmonirhat govt. college*

On going

The Department of Zoology at Lalmonirhat Government College plays a vital role in the academic landscape, offering a Bachelor of Science degree that focuses on the study of animal biology and behavior. Students engage in a comprehensive curriculum that covers various aspects of zoology, including animal physiology, ecology, genetics, and taxonomy. The department emphasizes both theoretical knowledge and practical experience, encouraging students to participate in field studies and laboratory work. This commitment to hands-on learning prepares graduates for careers in research, conservation, and education, fostering a deeper understanding of the biodiversity and ecology of the animal kingdom.
